

Clinician Educator - Assistant Professor/ Associate/ Full Professor – Mohs and Dermatological Surgeon

Position Description

The Department of Dermatology at the Perelman School of Medicine at the University of Pennsylvania invites Mohs surgeons to apply for open Assistant Professor positions in the non-tenure clinician educator track within the Penn Dermatology Oncology Center. Candidates will join our expanding, collegial team of dermatologic surgeons and enjoy a clinical practice dedicated to surgery and skin cancer.

Successful candidates will be committed to excellence in Mohs surgery and reconstruction and to building a nationally or internationally recognized career in academic dermatologic surgery. Candidates will enjoy extensive mentorship from our experienced surgeons and faculty to develop advanced surgical skills and an academic niche.

Applicants must have an M.D or M.D./Ph.D. degree. Qualified applicants must be an MD/DO or M.D./Ph.D. who is board-certified or -eligible after completing both an ACGME-accredited residency in dermatology and a fellowship in Micrographic Surgery and Dermatologic Oncology.

Teaching responsibilities may include didactics and bedside dermatologic surgery instruction to our world-class residents, fellows, and medical students. We seek enthusiastic candidates who are dedicated to teaching.

Clinical responsibilities may include Mohs and reconstructive surgery in our ambulatory practices in Philadelphia or Penn Medicine Radnor. Candidates will benefit from a busy surgical practice and an extensive infrastructure with state-of-the-art facilities and a large support staff of nurses, histotechnicians, and research fellows and coordinators. Our Mohs surgeons use immunostains for melanoma and other rare tumors, and we mentor candidates to develop these skills. We seek candidates who demonstrate excellent clinical judgement, professionalism, and a commitment to our team.

Research or scholarship responsibilities may include publishing and lecturing about advances to prevent and treat skin cancer. Faculty enjoy extensive support with research fellows, statisticians, and regulatory coordinators for research or clinical trials. Candidates will accelerate their careers with our team-based approach to research.

The Philadelphia region boasts a rich history with excellent restaurants, sports, art, and neighborhoods. Candidates can book easy plane travel to almost any worldwide destination, and train travel along the east coast is fast and convenient.

Equal Employment Opportunity Statement

The University of Pennsylvania is an equal opportunity employer. Candidates are considered for employment without regard to race, color, sex, sexual orientation, religion, creed, national origin (including shared ancestry or ethnic characteristics), citizenship status, age, disability, veteran status or any class protected under applicable federal, state, or local law.
